

GEFRAN

Sensors and Instrumentation for Process Control

Melt Pressure

- Melt Transducers / Transmitters
- Analog and Digital Melt Gauges
- Rupture Disks, Cables and More

Equivalent / Replacement for Dynisco, Gentran, GP:50 and Others

Position Sensors

- Potentiometers
- Magnetostrictive with analog, digital, and serial bus outputs

Equivalent / Replacement for Novotechnik, MTS Temposonics, Balluff and Others

Pressure Sensors

- 4-20 mA, mV/V, Vdc Outputs
- 0-30 psi to 0-70,000 psi
- Intrinsically Safe approvals available

Equivalent / Replacement for Dynisco, Sensotec, Hydac, Druck and Others

Process Controllers & Indicators

- Standard DIN Sizes (1/16, 1/8, 1/4)
- Pressure, Temperature and Process Controls
- Universal Input Process Indicators
- Various auxiliary input / output options including serial communications.

Equivalent / Replacement for Eurotherm, Barber-Colman, Watlow, Omron and Others

Solid State Relays

- Single and Three Phase SSRs
- SSRs with Logic or Analog Control
- Standard Overtemp Protection

Equivalent / Replacement for Crydom, Continental, Watlow, Carlo Gavazzi and Others
